NOTES TO FINANCIAL STATEMENTS

NOTE 1

Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Physicians Health Plan are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (DIFS). Effective December 31, 2015 Sparrow PHP sold 100 percent of membership to an unaffiliated health plan. The commissioner of DIFS approved the 4/30/2017 merger of Sparrow PHP into Physicians Health Plan.

DIFS recognizes only statutory accounting practices prescribed or permitted by the state of Michigan for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners’ (NAIC) *Accounting Practices and Procedures Manual*, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Michigan.

A reconciliation of Physicians Health Plan’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Michigan is shown below:

B. Use of Estimates

In preparing the financial statements in conformity with the NAIC Annual Statement Instructions and Accounting Practices and Procedures Manual, management makes estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Estimating the liabilities for losses and loss/claim adjustment expenses: Estimates on unpaid losses are based upon the plan's past experience, individual case estimates and an estimate for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined. Loss/claim adjustment expenses related to claims are accrued based on estimates of expenses to process those claims.
12.

PHP has not modified its capitalization from the prior period.
13.

Estimating pharmaceutical rebate receivables: Estimates on pharmaceutical rebate receivables are based on historical per member data for periods in which the rebates have been substantially received. This estimate is applied to periods in which future balances are expected, reduced by receipts to-date.

D. Going Concern

The principle conditions of our current environment that would raise doubt as to the ability of the plan to continue as a going concern would include the variability and uncertainty of the current health care marketplace. While potentially significant, Management has developed plans to alleviate the potential for going concern by reviewing budgeted trends for the Health System as well as Physicians Health Plan for 2017, diversification of the products we offer on and off the marketplace, and proper underwriting for new and renewing membership.

Fair Value Measurement

- A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
(1) Items Measured at Fair Value by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are reported on the balance sheet at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded common stocks and mutual funds. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are therefore classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category, for items measured at fair value on a recurring basis, includes bonds which are not exchange traded and common stock of a subsidiary which is valued using an adjusted market method. The estimated fair values of some of these bonds were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded. The Company has no Level 2 assets or liabilities.

Level 3 - Significant Unobservable Inputs: The Company has no Level 3 assets or liabilities.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Total

STATEMENT AS OF SEPTEMBER 30, 2017 OF THE PHYSICIANS HEALTH PLAN

(2) Rollforward of Level 3 Items

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(3) Policy on Transfers Into and Out of Level 3

Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2016 were \$16.3 million. As of September 30, 2017, \$13.0 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now approximately \$517,000 due to re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior-year development of approximately \$2.7 million from December 31, 2016 to September 30, 2017. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates increase or decrease, as additional information becomes known regarding individual claims.
